AMICE Congress 2020 Postponed

New Congress dates: 28-30 October 2020, Bilbao

Safety and protection are at the heart of the mutual/cooperative insurance community's principles. Our members' and stakeholders' security is our primary concern; to safeguard them from COVID-19 the Association of Mutual Insurers and Insurance Cooperatives in Europe ([AMICE](#)) has postponed the [AMICE Congress 2020](#) until 28-30 October. The Congress will continue to take place in Bilbao.

We are constantly in close contact with the authorities in Bilbao to ensure that Congress attendees will not be at any risk when joining us for this year's rescheduled Congress.

The Congress theme of transformation and change has never been as relevant as now. Disruption is taking multiple forms, leading to many channels of transformation. The Congress will reflect the dynamic nature and unpredictable direction that change can take.

We will be contacting confirmed delegates, speakers and sponsors individually in the coming days.

All delegates who have already registered for the Congress will be given the option of transferring their registration to the new dates. Full refunds are available for delegates unable to join us in October. New registrations can be made via the [Congress website](#).

We look forward to seeing you in October, in an incredible city and internationally recognised urban landmark which transformed itself in the face of extended adversity.

The Association of Mutual Insurers and Insurance Cooperatives in Europe aisbl (AMICE) is the voice of the mutual and cooperative insurance sector in Europe. The Brussels-based association advocates for appropriate and fair treatment of all mutual and cooperative insurers in a European Single Market. It also encourages the creation and development of innovative solutions for the benefit of European citizens and society.

Mutual and cooperative insurance follows the principles of solidarity and sustainability, and is characterised by customer-membership and a democratic governance. The mutual business model, with its focus on using surpluses for the benefit of its members, is the natural way to provide insurance.

More than half of all insurance undertakings in the EU are mutual and cooperative insurers which account for a market share of more than 32%. They provide cover for more than 420 million members/policyholders and employ nearly 440,000 people.
